Dear Gracen Alleman,

Congratulations! Your poster, "An Application of Clustering: Addressing Food Insecurity in Western North Carolina," has been accepted for the undergraduate poster session at the 103rd Meeting of the Southeastern Section of the Mathematical Association of America. As a reminder, the meeting will be held from the evening of Thursday, March 14 to lunchtime on Saturday, March 16 on the campus of the University of Tennessee, Knoxville.

Your name, affiliation, any additional authors, title, scheduled session time, and abstract as I have them are listed below. (Any LaTeX code will be correctly formatted in the final abstract booklet.) Please let me know by **Monday, February 19** if you would like any of the info to be listed differently in the program and booklet of abstracts or if the time is unacceptable.

- Name: Gracen Alleman
- Affiliation: Warren Wilson College
- Additional authors, if any: Mason Hollar, Warren Wilson College
- Neylan Visnius, Warren Wilson College
- Title: An Application of Clustering: Addressing Food Insecurity in Western North Carolina
- Abstract: Clustering is a data analysis technique that divides a dataset into distinct groups, with each group containing similar data points. We apply clustering to CDC social vulnerability and health conditions data to identify and map geographic regions in Western North Carolina that are most suitable for targeted outreach efforts by a local food bank.

The Undergraduate Poster Session will be held on Saturday morning. Setup will be from 7:30-10:10am; judging will occur from 10:10-10:45am; and posters will remain up until noon. The specific location will be available in the full program at the conference and online shortly before the conference. We provide a tripod, posterboard, and binder clips. Printed posters can be any size, but 48" x 36" is the most common.

You can find more information about the conference at the conference website <https://maasoutheastern.org/2024-section-meeting/>. If you have not yet registered, please take a few minutes to do so at the [meeting registration page on the MAA portal](#). (Note: You will need a free MAA account to register.) Early registration is until February 19th; registering after this day will result in a higher fee.

If you have any questions, please feel free to contact me.

Thank you for your contribution to our section!

Sincerely,

Andy Miller
